To improve security, enable just-in-time access on this VM. →

RDP SSH Bastion

Connect with RDP

✓ Suggested method for connecting

Azure has checked the status for the most common prerequisites when connecting using this method.

- ✓ An inbound network security group rule has been created and your client IP address can access 3389.
- ✓ The VM's network interface has a Public IP address. [Learn more](#) ⓘ
- ✓ The VM is running.

To connect to your virtual machine via RDP, select an IP address, optionally change the port number, and download the RDP file.

IP address *

Public IP address (52.249.219.153)

Port number *

3389

Download RDP File

Can't connect?

vm1 - 52.249.219.153:3389 - Remote Desktop Connection
